A MATCH MADE IN NARNIA

Narnia is home to many magical creatures. And since they're unlike anything that exists in our world, Lucy and Edmund have to explain to their cousin Eustace who these creatures are and what magical powers they have. See if you can help them match the name of the creatures to the different descriptions by filling in the blanks below.

DESCRIPTION

1 These fat, short, dwarf-like creatures were made invisible by a magician until Lucy read a spell that made them reappear.

2 A fierce and menacing creature with the body of a man and the head of a bull. They have supernatural strength and speed and make great generals in battle.

3 A woodland creature with the legs of a goat and the upper body of a human. It's incredibly nimble, so you need to be quick to keep up.

4 A nature spirit that lives either in the forest or water. When it leaves its tree or watery domain, it can assume a physical body resembling that of a human being.

5 This forest creature is part human and part goat—even its face resembles that of a goat. It has reddish fur all over its body, long horns, and goat legs that have great power.

CREATURES

— MINOTAUR

— NAIAD

— FAUN

— DUFFLEPUD

— SATYR
